Article 26: Non-legislative acts

~~The Council, and the Commission as well as the European Central Bank, shall adopt European regulations or European decisions in the cases referred to in Articles 27 and 28 and in cases specifically laid down in the Constitution.~~

- 1. European regulations and European directives may be adopted as delegated acts in accordance with Article 27.**
 - 2. European regulations, European directives and European decisions may be adopted as implementing acts in accordance with Article 28 and in cases specifically laid down in the Constitution.**

Explanation :

It would seem more appropriate to include the “delegated act” under the category of non-legislative acts with a reference to Art. 27 and not to give it a separate name.

In the light of the structure of Article 24 as well as Articles 27 and 28, I propose to refer in Article 26 more explicitly to the type of procedure by which the non-legislative acts may be adopted.
