Article I-36: Implementing acts

1. Member States shall adopt all measures of national law necessary to implement legally binding Union acts.
2. Where uniform conditions for the implementation binding Union acts are needed, those acts may confer implementing powers on the Commission, or, in specific cases and in the cases provided for in Article I-39, on the Council.
3. The law shall lay down in advance, **by the Council acting unanimously on a proposal from the Commission and after obtaining the opinion of the European Parliament**, rules and general principles for the mechanisms for control by Member States over implementint acts of the Union.¹
4. Implementing acts of the Union shall take the form of European implementing regulations or European implementing decisions.

¹ Corresponds to Article 202 EC. It is important to keep this procedure to ensure that the Council has influence over the control mechanism in areas where the European Parliament is not co-legislator.
