

AMENDMENT FORM

Suggestion for amendment of Article : 14 (Part II)

By Ms / Mr : Jan Kohout

Status : ☒ - Member - Alternate

14(1) replace « adoption of measures for the approximation of national laws having cross-border implications» by « adoption of measures **for prospective approximation in accordance with the principle of subsidiarity** »

«where such action is a matter **of** national law »

14(3) Remove

Explanation (if any) :

14(1) It is not advisabel to limit the approximation to « cross-border implications » - it can lead to unintended fragmentation of law standards and reverse discrimination.

14(3) It is not necessary to keep different decision making process in the area of family law.
