

AMENDMENT FORM

Suggestion for amendment of article 14

By Mr Poul Schlüter

Status: Alternate

Article 14: Judicial cooperation in civil matters

1. (...)
 2. (...)
 3. The Council, on a proposal from the Commission, shall unanimously adopt laws and framework laws concerning family law; it shall act after consulting the European Parliament.
~~The European Parliament and the Council, in accordance with the legislative procedure, shall adopt laws and framework laws concerning parental responsibility.~~
-

Explanation:

It seems unpractical with two different decision procedures with regard to family law and parental responsibility since these two matters are closely inter-connected, and furthermore often regulated in the same legal act.
