20(1) remove « /creating a European Public Prosecutor's Office/ **within Eurojust** »

20(1) The European Public Prosecutor's Office **may be granted responsibility for ...**

Explanation (if any) :

It is not clear how the European Prosecutor would function within Eurojust, having larger competences than the Eurojust.

By creating the European Prosecutor's Office it could be preferable to start by the financial interests of the EU only.

The role of ECJ and the whole structure around the European Prosecutor shall be specified – both on the European and towards the national level.
