On behalf of the EPP Convention Group

Status : - Member - Alternate

Suggestion

Article III-207 (ex Article 19)

1. The European Armaments, Research and Military Capabilities Agency, subject to the Council's authority, shall have as its task to:
 - (a) contribute to identifying the Member States' military capability objectives and evaluating observance of the capability commitments given by the Member States;
 - (b) promote harmonisation of operational needs and adoption of effective, compatible procurement methods;
 - (c) propose multilateral projects to fulfil the objectives in terms of military capabilities, ensure coordination of the programmes implemented by the Member States and management of specific cooperation programmes;
 - (d) support defence technology research, and coordinate and plan joint research activities and the study of technical solutions meeting future operational needs;
 - (e) contribute to identifying and, if necessary, implementing any useful measure for strengthening the industrial and technological base of the defence sector and for improving the effectiveness of military expenditure.
2. The Agency shall be open to all Member States wishing to be part of it. The Council, acting by qualified majority *and after consent of the European Parliament*, shall adopt a decision defining the Agency's statute, seat and operational rules. Such rules should take account of the level of effective participation in the Agency's activities. Specific groups shall be set up within the Agency bringing together Member States engaged in joint projects. The Agency shall carry out its tasks in liaison with the Commission where necessary.

Explanation (if any) :

The role of the European Parliament should be strengthened here, also due to the fact that an armaments agency has also budgetary implications.
